

Mayur Lagad

7391001661 | mlagad2020@gmail.com | Pune, Maharashtra

Summary

Versatile full-stack software developer with expertise in both frontend and backend development. Demonstrates exceptional skills in architecting robust and user-friendly applications, leveraging a solid programming foundation. Proven ability to deliver high-quality solutions tailored to meet diverse client needs.

Experience

Openslate VFX Studio | Pune

Pipeline TD | 02/2024 - Present

- Collaborated with artists and supervisors to identify and resolve technical challenges in production
- Implemented Python scripts to optimize rendering processes and reduce rendering times
- Developed and maintained tools and plugins in Python for pipeline automation
- Created a Project Management System for tracking project statuses
- Streamlined workflow processes through automation and optimization techniques

Crux Technology | Nashik

Web Developer | 02/2022 - 04/2022

- Developed and deployed machine learning projects using flask.
- Customized web applications to meet client specifications through proactive client engagement
- Managed project timelines and collaborated cross-functionally to deliver projects on schedule and within budget.
- Conducted regular code reviews to ensure code quality and maintainability.

Skills

C++, Python, JavaScript, React.js, Node.js, HTML, CSS, SQL, MongoDB, DSA and OOPs, Django

Projects

Project Management System

- Developed and implemented a Project Management System to optimize tracking, assignments, and deadlines.
- Collaborated with artists to design a user-friendly interface and streamline workflow.
- Implemented effective methodologies for tracking project status, ensuring transparency and accountability
- Technologies Used : HTML, css, JavaScript, Django, MySql, ajax.

Tuneverse(Music Webapp):

- Developed a dynamic music web application leveraging React.js for frontend interactivity and Bootstrap for responsive design.
- Implemented a robust backend using Express.js, featuring RESTful API endpoints for seamless integration and efficient data management.
- Utilized MongoDB for optional database storage to enhance scalability and data persistence.
- Technologies Used : HTML, css, React.js, Expressjs, Mongoddb.

Education

Itvedant Institute | Pune

Full stack Web Development with AWS | 01/2024

Dr DY Patil Institute of Engineering Management & Research | Pune, Maharashtra

Computer Engineering | 07/2023

Certificates

Python for web development by IBM, Complete JavaScript by Mygreatlearning
